In 1716 Ignaz Tobias Böttinger commissioned Johann Dientzenhofer to build the Baroque water castle Concordia. The Free State of Bavaria has been funding it as an artist residency since 1998.

The photo is by Jürgen Schabel. The artwork is by Alexander Deubl and is entitled *The Flight of the Phoenix*.

The International Artist Residency Villa Concordia welcomes recipients of the Concordia grant each year. The guests arrive from Germany and one other country. It is a live-in, creative and an event venue for their exhibitions, concerts and readings and is funded by the Free State of Bavaria. At least 12 professional artists stay for 5 or 11 months to work on projects during their stay.

Feel cordially invited to their events - admission is free.

The artists are chosen by a board of curators. It is not possible to apply for this program.
